DETAILED ACTION

Election/Restrictions

The response to the Election of Species requirement was filed on 12/22/2005. Applicant's arguments were found persuasive and thus, claims 37, 39-53, and 55-66 are pending.

Priority

Acknowledgement has been made of applicant's claim for priority under 35 USC 119 (a-d). The certified copy has been filed on 2/22/2002.

Drawings

The drawings received 2/22/2002 are acceptable for examination purposes.

Specification

The amendment filed 4/27/2005 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: "separation of the amine-contacted solid polymer electrolyte or precursor thereof from the amine compound" as recited in claims 37, 45, and 53. If applicant believes said recitation is fully supported by the specification as originally filed, the Office request that Applicants indicate column and line to identify the support.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

Art Unit: 1745

Claims 37, 39-53, 55-66 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The recitation "separation of the amine-contacted solid polymer electrolyte or precursor thereof from the amine compound" in claims 37, 45, and 53 is not supported by the specification as originally filed.

Comments

The Office notes that claims 37, 39-53, 55-66 are free of prior art as they currently read. However, new matter issue needs to be resolved before indicating the claims as allowable subject matter.
